DETAILED ACTION

Election/Restrictions

1. Applicants response (on 02/04/2009) to the restriction requirement mailed 12/05/2008 has been received, however, upon further consideration of the claims the present restriction is applied herein.

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10, drawn to a method for manufacturing drawn biodegradable filament.

Group II, claim(s) 11-20, drawn to an apparatus for drawing biodegradable filament.

Group III, claim(s) 21-23, drawn to a biodegradable super micro-filament product.

3. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: in this case the “drawn biodegradable filaments” can be considered the special technical feature that links all the claims, however, these are known in the prior art (refer to MATSUNAGA et al. US 2003/0148688 A1 that teaches biodegradable filament nonwoven fabrics composed of drawn filaments of a polylactic acid based polymer, Abstract, [0111]). Thus, it is the Examiner’s position that the special technical feature of drawn biodegradable filaments fail to define a contribution over the prior art.

Art Unit: 1794

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Norca L. Torres-Velazquez whose telephone number is 571-272-1484. The examiner can normally be reached on Monday-Thursday 8:00-5:00 pm and alternate Fridays.
